

SOLAS ENERGY®

*Innovative. Comprehensive. Trusted.*

**Solas Energy is a trusted partner in renewable energy, hydrogen, energy storage, and sustainability, offering strategy, Owner's Engineering, development, and consulting services across North America.**

**Established in 2009 Woman-Owned Enterprise**

**64 GW+**
**Renewable Energy Project Experience**

**847+**
**Projects Consulted**

Solas Energy's expertise spans strategy, development, and management of utility and commercial projects involving wind, solar, hydrogen, energy storage, grid modernization, biomass, and ZEV mobility.

Since 2009, Solas Energy has partnered with clients across North America to deliver renewable energy and sustainability projects — including gigawatt-scale installations. We bring the expertise to turn complexity into clarity, helping clients manage risk in engineering, financing, contracting, and operations while finding solutions where challenges seem too difficult. Our work also supports clients in navigating the evolving landscape of climate and energy policy with confidence.

**"Solas Energy provided us with a succinct, yet very comprehensive report setting out the structure of the likely future of carbon in Alberta… The quality of work was excellent and delivered exactly what we were looking for within a very tight timeframe over a challenging period. This supported us in making valuable and informed decisions about future capital investments."**

SOLAS ENERGY®

*Innovative. Comprehensive. Trusted.*

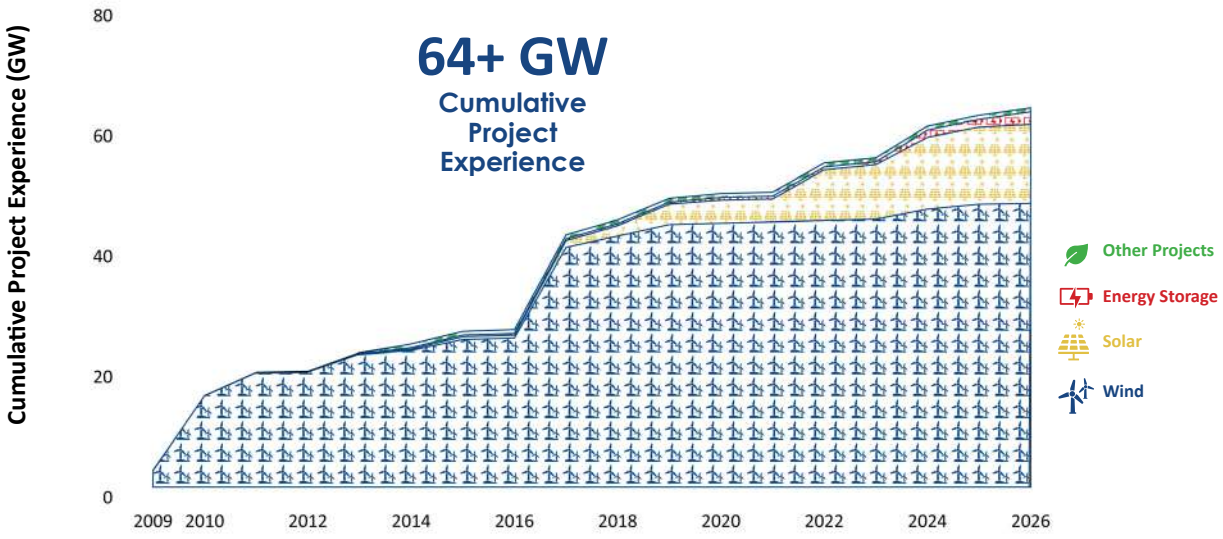

**Sustainability is at the heart of everything we do. Our foundation is based on being an Innovative, Comprehensive, and Trusted partner for our clients.**

Sustainability is at the core of how we work and the services we deliver. We help clients address complex challenges in renewable energy, hydrogen, storage, and low-carbon solutions by finding practical pathways that reduce risk and unlock opportunity.

Our team draws on decades of experience to design strategies that balance economic performance with environmental responsibility. We focus on delivering solutions that reduce emissions, strengthen climate resilience, and support long-term community and stakeholder value.

**Sustainability isn't just our service - its how we work.**

At the same time, we hold ourselves accountable. Solas Energy is committed to reducing our own footprint, educating our team and partners, and embedding sustainability into every aspect of our business.

**(Founded in 2009)**
