

Solas Energy® supports developers, investors, and industry stakeholders in evaluating, structuring, and managing critical commercial agreements across the renewable energy sector. With more than 20 years of experience, we bring clarity and precision to negotiations involving:

- **Power Purchase Agreements (PPAs)**
- **Turbine Supply Agreements (TSAs)**
- **Energy Storage Contracting** (BESS tolling, capacity, and services agreements)
- **Operations Contracting** (O&M, Asset Management, and Service Agreements)
- **Long-Term Service Contracts**

PPA & TSA Contract Execution

PPA & TSA Agreement Management

Commercial Contracting

## Due Diligence

- Comprehensive economic analysis and risk assessment of PPAs, TSAs, energy storage, and O&M agreements during acquisitions
- Evaluation, structuring, and negotiation of commercial agreements
- Assessment of compliance, contractual obligations, and permitting requirements

## Contract and Project Management

- Development of Compliance & Obligation Registers for PPAs, TSAs, energy storage, and O&M contracts
- Monitoring of contractual obligations across the full project lifecycle
- Management of Requests for Information (RFIs) and contractual clarifications
- Oversight of change order processes to ensure alignment with contractual frameworks

## Our Commitment

We help clients turn complexity into clarity in transactions and strategic decisions, ensuring that renewable energy projects deliver economic, environmental, and community benefits.

*"No other organization is equipped to provide the analytical services that Solas Energy is able to provide. In this way, Solas Energy has been a key part of helping us to advance the dialogue on the potential for renewable energy's contribution to Alberta's electricity supply."*
