

## *Plan. Procure. Oversee. Deliver.*

Independent expertise from siting to operations handover.

### 64 GW +

Renewable Energy &  
Energy Storage Project Experience

### 680+

Projects  
Consulted

Effective Project  
Collaboration

Trusted Advisory  
Solutions

## **Project Management Services:**

### Project Siting and Layout

- Site layout recommendations, including micro-siting
- Constraint analysis (easements, setbacks, etc.)
- Crossing agreement management

### Value Engineering

- Design and constructability reviews
- Procurement and material strategy support
- Supply chain risk assessment and mitigation

### Procurement Support

- Contractor and supplier prequalification
- RFP development and management
- Bid evaluation, negotiation, and award support
- Contract drafting and review

### Project Controls & Oversight

- Scheduling, budgeting, and project reporting
- Interface management with independent engineers (IEs) and lenders
- Risk and change management
- Owner's Engineer design review services

## **On-Site Services (Owner's Engineer):**

### Owner's Representative

- Day-to-day monitoring of construction progress on behalf of the owner
- Verification of work against design specifications, drawings, and contracts
- Oversight of permitting compliance during construction
- Coordination with landowners, utilities, and regulators

### Quality Assurance and Quality Control

- Verification of equipment deliveries and installation against contract requirements
- Factory, shipping, and on-site inspections
- Witnessing of commissioning, interconnection, and energization testing
- Punch list management and closeout verification

### Turnover of Care, Custody and Control

- Review of as-built drawings, warranties, and O&M manuals
- Oversight of change orders and contract compliance
- Support for transition from construction into operations, including owner/operator training

### *Your Eyes and Ears On-Site.*

Protecting your investment with  
Owner's Engineer oversight.

### *Built for Performance.*

Ensuring your projects are delivered to  
specification, on budget, and on time.

### *Turning Complexity Into Clarity.*

Clear reporting, risk management,  
and project controls.
