

Solas Energy® is equipped to support developers, investors, and industry market players to evaluate, develop, execute, and manage key contractual agreements within the renewable energy sector. Solas Energy has over 20 years of experience managing key agreements, including power purchase agreements (PPA) and turbine supply agreements (TSA) across multiple jurisdictions and regions throughout North America.

10 GW Commercial Contracting

PPA & TSA Contract Execution

PPA & TSA Agreement Management

Due Diligence

- Provide comprehensive economic analysis and risk assessment of seller's PPA and TSA contracts during project acquisition.
- Evaluate, structure, and negotiate commercial agreements.
- Assessment of financing alternatives tailored to customer requirements.
- Assess contractual, compliance, and permit project requirements.

"No other organization is equipped to provide the analytical services that Solas Energy is able to provide. In this way, Solas Energy has been a key part of helping us to advance the dialogue on the potential for renewable energy's contribution to Alberta's electricity supply."

Program Director, Electricity
Pembina Institute

Project Management

- Generate "smart" obligation log to manage TSA, PPA, & other contractual commitments log to facilitate timely delivery of obligations.
- Ensure adherence of contractual commitments throughout each project phase.
- Manage RFI processes through timely and accurate responses.
- Control change order requests in accordance with contractual obligations.

About Solas Energy

A women-owned enterprise with over 20 years of experience in project development, construction management, and climate change advisory, Solas Energy provides its clients with the depth and perspective required to navigate the complex issues associated with renewable energy project development and climate change policy.
